2 years left for completion)

### Damak Multiple Campus

Higher education (+ 2)  
2018-2020

## WORK EXPERIENCE

### On the way to become a Full-Stack Developer

Till now no any professional work experience on any field . Because I am learning and improving myself in IT field. I know front-end very well and created my own portfolio. Many others samples and clones of websites and apps have been made by me to improve my skills.

If anyone gives me any project related to front-end, I am sure the client will be satisfied by my work.

Currently I am learning the courses for to become a back-end developer. Overall my aim is to be a full stack developer in IT filed.

Beside these, I know all the basic knowledge of Photoshop, video editing, Office, Most importantly C, C++ languages and Data Structures and Algorithms.
